INSTRUCTIONS FOR OPERATION OF DIAL TELEPHONES

GENERAL

Obtain the correct number from the directory before dialing.
 Do not dial until you hear the dial tone, a steady humming sound.
 If you make a mistake when dialing, hang up the receiver a few seconds and begin again.
 Do not touch the receiver cradle or dial while talking.
 If the number dialed is busy, a rapid intermittent sound will be heard.
 Hang up the receiver, wait a reasonable time and dial the number again.
 If the number dialed is not busy, a slow intermittent sound will indicate that the number is being rung.

CALLS TO TELEPHONES SERVED BY THE DEPARTMENT OF AGRICULTURE MAIN SWITCHBOARD:

(These telephones are listed in the directory without a Code number.)

Example--A call for Branch 353.³

Remove receiver.

Listen for the dial tone.

Place your finger in the opening over the numeral 3.

Move the dial clockwise until you strike the finger stop.

Remove finger and allow the dial to return to normal position.

Dial the numerals 5³ and 3 in order in a similar manner.

CALLS TO OTHER TELEPHONES IN THE DEPARTMENT OF AGRICULTURE, BUT NOT SERVED BY THE MAIN SWITCHBOARD:

(A Code number is shown in the directory before these telephone numbers or only the Code may be shown.)

Dial the Code number ONLY.

When an operator answers, give her the telephone number, or the name of the person desired, if number is not shown.

When dialing the Code "0" give the operator the name of the Agency desired.

The Codes are as follows:

	<u>Code</u>
Beltsville Research Center	<u>837</u>
Farm Credit Administration	82
Region 7 (Forest Service)	0
Rural Electrification Admin.	838

Calls from the above switchboards to the Department of Agriculture Main Switchboard will be handled manually by the Department telephone operators.

CALLS TO OTHER GOVERNMENT DEPARTMENTS:

Do not call other Government Departments or Agencies by their central office number.

Where direct tie lines are provided to other Government departments or Agencies, code numbers are dialed to reach these organizations.

A list of direct tie lines to other Government organizations is shown on the cover page of this directory, together with their respective Code numbers.

Upon dialing the code of the organization desired, you will be connected with the proper switchboard operator, who will complete your call. If the tie lines of the Department you are dialing are all busy, you will automatically be connected with the Inter-departmental switchboard operator.

Example--A call for the Department of Commerce, (Code 832) Dial 832 and wait for the answer of the Commerce operator. If the 832 (Commerce) tie lines are all busy, you will receive an answer from the Inter-departmental operator. When she answers, ask for Commerce. Where direct lines are not provided, calls are routed through the Inter-departmental (Government) switchboard, which is reached by dialing Code number, 80. When the Inter-departmental operator answers, ask for the Government department with which you desire to be connected.

CALLS TO OUTSIDE NUMBERS:

Example--Call to District 6713
Remove receiver and listen for dial tone.
Dial the figure "9"; and listen for second dial tone, then dial the first two letters of the Central Office name, and the number followed by the letter, if there be one. If you receive the "busy" signal, hang up for a short interval and dial again.

LONG DISTANCE AND TOLL CALLS;

After dial tone is heard, dial the figures ^{"87"} "0" (Operator) and ask for Long Distance. All Long Distance calls must be given to the Department's Long Distance Operator.

SIGNALLING THE OPERATOR TO TRANSFER CALLS:

Calls originating on dial equipment in Department of Agriculture cannot be transferred by the operators.
On incoming central office calls and other calls handled by the operator, you may signal the operator to transfer the call to another telephone or for any purpose by moving receiver hook up and down.

TO REPORT TROUBLE:

If difficulty of any nature is experienced, call the Department's Chief Operator by dialing Branch "388".

TELEPHONE HABITS
for
Secretaries, Supervisors, and other Phone Users

When you talk over the telephone you represent your organization. Your telephone manners and tone of voice go a long way toward establishing the reputation of your section, division, bureau and--on outside calls--of your Department.

"Phone as you would be phoned to" is a policy for all to follow. The following set of habits will help any phone user put this policy daily into effect:

1 ANSWER PROMPTLY. Do you like to wait while the phone keeps ringing? Do you enjoy waiting for the other man to pick up the phone after his secretary has answered? What do you think of the man who calls you and then is not on the line when you answer?

2 TELL WHO YOU ARE. Drop your old "hello" habit when answering the phone. The person calling always wants to know whether he has the right number, so tell him without making him ask.

Examples for answering: "Mr. Brown's office"
"Service Section"
"Service Section, Mr. Brown speaking"

When you are calling, tell who you are before the person at the other end asks.

Examples for calling: "Is Mr. Brown there? Mr. Smith is calling"
"This is Mr. Snell in Service Section
calling Mr. Pinkerton"
"This is Jones in BAE calling Mr. Jordan"

3 SPEAK DISTINCTLY AND WITH A SMILE. Don't talk with a cigar, pipe, pencil or gum in your mouth. Does your voice show personal interest by sounding pleasant, friendly, cordial, cheerful, interested, helpful? Or is it expressionless, mechanical, indifferent, impatient, inattentive, repelling?

4 BE COURTEOUS. Many persons shudder every time they are asked, "Who is calling?" This question is disliked especially when a secretary asks it before she tells whether the person called is available or not. It is preferable to ask:

"May I tell him who is calling (or, "who called"), please?"
"May I take a message for him, please?"
"Would you like to have him call you?"

Listen without interruption. Be patient and attentive. Bluntness saves time but not nerves. Avoid such bossy phrases as "you will have to" and "there is a rule that you must--." Learn to use such polite phrases as "please," "thank you," "I am sorry."

5

HANDLE THE CALL YOURSELF IF POSSIBLE. How do you like having to repeat your question to several different people before reaching the one who can answer it? When someone calls you, don't transfer the call if it can be avoided. If you cannot handle it, something like this may be in order:

"If you wish, I will get the information and call you back."

"Mr. Brown (or "The Service Section") handles that. If you wish, I will refer it to him and ask him to call you."

This does not mean that a secretary should try to answer everything herself. That, too, is often a nuisance, and especially if she has to repeat each statement of the caller to her supervisor and then relay his answer to the caller. That takes more time for everyone and is aggravating to the caller.

6

END WITH A POLITE PHRASE. Do you enjoy having the receiver click in your ear any more than having a door slammed in your face? Draw the conversation to a definite close with "goodbye," "thank you for calling," or some other appropriate phrase before hanging up the receiver.

7

ALWAYS ANSWER, OR ARRANGE FOR SOMEONE ELSE TO DO IT. If you must leave your phone unattended, arrange for someone within hearing distance to answer it.

SECRETARIES NOTE: Telephone habits are like all other habits in that they can be learned only through practice. Memorizing is only the first step.

SUPERVISORS NOTE: If your new secretary is not adept at telephone usage, that is no one's fault. But if she continues to say "hello" or "who is this?" or to make other similar blunders, you must share the blame with her. Her performance reflects not only her efficiency but your supervision, for it is your responsibility to instruct the members of your office in what work to do and how to do it. By your telephoning others know you.
